

Versatile Camper Trailer – *more than just a campertrailer, it's a VCT™*

Trailer Specifications

- 7 x 5 All Aluminium Box Trailer, weighing around 150kg without the tent fitted
- Torsion Axle for low maintenance and excellent off-road clearance
- Off road hitch – also makes it harder for anyone to ‘borrow’ your trailer when parked
- ATM of 750KG, which means you can carry up to 450KG with the tent fitted or 600KG when using the trailer by itself!
- Large 10” Jockey Wheel for easy hand manoeuvring of the trailer
- Brand new 17 inch aluminium off-road tyres with spare securely fitted
- Incorporated aluminium fold-out table on the rear swing out tail bar
- All LED lights
- 100L water tank with manual hand pump and lockable filler
- Bike rack fitting to the rear of the trailer to allow for taking bicycles
- Mudflaps
- Four (4) leg stabilisers to the trailer – front and rear
- Storage areas on both sides of the trailer to allow for jerry can storage
- Proprietary easy lift system, to ensure the tent can be quickly removed from the trailer to allow the trailer to be used separately
- Gas struts for easy access under the tent when fitted
- Four heavy duty jacks supplied for safely removing the tent

Tent Specifications

- Heavy duty waterproof canvas
- Galvanised tent poles
- Sun-shade to keep the tent cooler in summer
- Flyscreens to all windows
- Innerspring double mattress
- Extra annexes, both small and larger annex that are quickly fitted and secured when needed to provide space for up to 8 adults
- Internal gas struts to support 5-minute setup of the main tent area
